

FIELD DAY

Who's on your side, & who's not?

Dung Beetles & Earthworms.

What can they do for your pasture and crops?

Are you getting the most out of them?

Former CSIRO Principal Research Scientist, Dr Bernard Doube will Overview the functional interactions between soil biology, organic matter and plants; biological indicators of soil health; and share his extensive knowledge on the positive impacts of Dung Beetles & Earthworms for your farm, and how to encourage these cheap industrious workers.

Buffalo Fly & Pestivirus.

Manage the impacts on stock and your bottom line. Get a head start with this years control strategy.

Dr Phil Kemsley, District Vet with the Livestock Health and Pest Authority will discuss Buffalo Fly Control. Phil will also discuss Pestivirus, its potential impacts on your herd, and management strategies.

Soil regeneration & Livestock nutrition

AgSolutions' Roger Newman and Paul Pritchard will dig deeper into soil nutrition and the link to pastures, and livestock supplementation needs due to the leaching of our soils in recent years. Local stockists Norco, will be on hand.

Wednesday 24th October 9.00am - 3.30pm (lunch provided)

At Graham and Chris Reids' property,
at the end of Grahams Creek Rd, Woodenbong

Enquiries: Terry Moody, CSO. Upper Clarence Combined Landcare; ph: 66653133

Sponsored by North Coast Regional Landcare & funded by the Australian Government's Caring for Our Country
